

The new City Hall will have a "Kakanai-Madoguchi" (no writing counter)

From January 6, 2025, you can carry out various procedures at the new City Hall.

After receiving your reception number on the first floor of the City Hall, go to the counter to complete your procedures.

When completing procedures at the counter, you will no longer need to write on the application form.

When your ID such as your My Number card, driver's license, or residence card is scanned by a machine, your name and address will be automatically written on the application form.

After confirming that it has been correctly scanned by the machine, you will sign. (You may have to write part of the document in some cases.)

See the website below for the location of the new City Hall.
